

APPLICATION REPORT

BEVERLY HOSPITAL

MONTEBELLO, CALIFORNIA

MEDI-MIZER

QUOTE:

"MEDI-MIZER gives you everything you need. It's an extremely comprehensive product. Nothing is left out. This system has definitely exceeded my expectations!"

--John Mazur, Biomedical Engineering Manager, Beverly Hospital

BEVERLY HOSPITAL USES

MEDI-MIZER TO

PROVIDE A SYSTEMATIC,

MANAGERIAL APPROACH

TO QUALITY CONTROL

AND RISK MANAGEMENT,

ENSURING THE SMOOTH

OPERATION OF 2,000

PIECES OF BIOMEDICAL

EQUIPMENT.

PROFILE:

- ▶ 225 bed Hospital
- ▶ 2 Buildings
- ▶ 2,000 Pieces of Biomedical Equipment
- ▶ 2 Biomedical Employees
- ▶ MEDI-MIZER Customer Since 1997

PRODUCT BENEFITS:

- ▶ Biomedical technicians at Beverly Hospital use MEDI-MIZER from TISCOR to document biomedical equipment inspections on 2,000 pieces of equipment. MEDI-MIZER effectively tracks the facility's safety, performance, and preventive maintenance inspections. All collected data is easily organized into meaningful reports, helping staff regularly inspect and manage hospital equipment.
- ▶ MEDI-MIZER is packed with user-friendly features, enabling quick and easy navigation. According to Mr. Mazur, technicians can get the information they need, when they need it--eliminating time-consuming searches. MEDI-MIZER features "quick entry" and "quick close," allowing users to access information and close inspections in fewer steps.
- ▶ MEDI-MIZER compiles all data into detailed reports, outlining inspection activities. According to Mr. Mazur, "The report format is excellent. You can get anything you want out of it." Beverly Hospital uses the system to filter for risk-based criteria, ensuring the smooth operation of their biomedical equipment.
- ▶ Mr. Mazur is confident MEDI-MIZER will help Beverly Hospital prove compliance to JCAHO next year. The system's reports illustrate that biomedical equipment is running according to standards of both JCAHO and the FDA. "With MEDI-MIZER in place, I know that everything will go smoothly," said Mr. Mazur.
